

Organizational Charter of the Virginia Transhumanist Party

Purpose

This document will outline in high and low detail what the VA Transhumanist party is, and how it operates.

Guiding Principles of Organization

The party will have multiple sources used as inspiration for its structure and operation. All assumptions about organizational specifics are challengeable and subject to change given the party members consensus. In the event a consensus cannot be reached the singular most senior party organizer will decide the course of action.

Some basic precepts:

- Membership is always open and all requests to join must be honored
 - Membership is currently just the state of mind of wanting to be a member or possibly being signed up onto the forum. This point is to be discussed and changed shortly.
- Leaving the party is always honored as soon as possible.
- The transient nature of party membership means that members will have to authenticate themselves to the organizers for the purposes of using the party infrastructure.
- The party is a digital first organization.
-
